

## Section 2(ee) Recommendation

Date: May 17, 2007

Product: Quadris<sup>®</sup> Flowable Fungicide (EPA Reg. No. 100-1098)

Use: For control of sunflower rust (*Puccini helianthi*) in sunflower

Allow tankmix with Warrior<sup>®</sup> with Zeon Technology<sup>™</sup> Insecticide for insect control in sunflower

States: Colorado, Kansas, Minnesota, Nebraska, North Dakota, Oklahoma, South Dakota

### DIRECTIONS FOR USE

#### **Sunflower Rust**

Apply Quadris at 6-7 oz/acre for control of sunflower rust at or before the first detection of disease. Make the first application at or just after early bud development. Apply according to the use directions for sunflower under the Oilseed Crops section of the federal label.

#### **Tankmix with Warrior with Zeon Technology**

Quadris can be tankmixed with Warrior with Zeon Technology for control of diseases and insects on sunflower. The most restrictive labeling for any individual product applies when tank mixing.

---

**The user must refer to the federally approved Quadris and Warrior with Zeon Technology labels and read and follow all applicable directions for use, restrictions, and precautions.**

**It is a violation of federal law to use this product in a manner inconsistent with its labeling.**

**This recommendation should be in the possession of the user at the time of pesticide application.**

**This recommendation is made as permitted by Section 2(ee) of FIFRA, as amended, and has not been submitted to or approved by the EPA.**
